

Welcome Students and Parents!

Welcome to the Releasing the Genius community. For over 30 years our mission statement, "To promote co-operation, inspire confidence, and release the genius in every child", continues to be the foundation that binds high-performing educators, parents, and students toward one common vision – to create future leaders with the global standard of education.

Spirit of Math is difficult, requires a lot of effort, and it works! The academic success of our students is largely due to the hard work of a community working together. Success is achieved by a combination of the grit and collaborative work of our students, the positive consistent assistance by parents at home and the extra support provided by each campus. As members of this community, both parents and students have access to many tools designed by Spirit of Math to enrich the learning experience.
